SUMMARY

Associate Developer with experience delivering report and dashboard solutions for clients, including code-based reporting and Amazon QuickSight. Builds production UI and features using JavaScript and modern frameworks (Next.js, NestJS), and supports stakeholders by explaining report logic clearly when needed.

CORE SKILLS

Reporting / BI:	Amazon QuickSight, report logic, data validation, standardized report outputs
Frontend:	HTML, CSS, JavaScript, React, Next.js, Bootstrap
Backend:	NestJS, PHP, Laravel, SQL
Tools:	Git/GitHub, Figma, Vercel, Microsoft Office (Excel/Word/PowerPoint)
Design:	Adobe Photoshop, Illustrator; basic video tools (After Effects, Premiere)

PROFESSIONAL EXPERIENCE

Trade Dynamics — Associate Developer

Jun 2023 – Present

- Develop standardized client form reports and reporting logic through code-based reporting aligned to requirements.
- Build and maintain Amazon QuickSight dashboards/reports used by clients for decision-making.
- Built the UI for conzuma.tradynamics.com and contributed to a Next.js + NestJS AI-assisted report generator based on client data.

All About You Skin Clinic (Australia) — General Virtual Assistant (Remote)

Mar 2022 – Aug 2022

- Managed 30+ client inquiries/day via email and social platforms; provided timely, clear support and follow-ups.
- Created marketing materials and proofread manuals/SOPs (35+ pages) for clarity and consistency.

Pencil Learning Technologies (Singapore) — Graphic Artist

Feb 2021 – Dec 2021

- Delivered high-volume outputs under strict deadlines and quality checks; coordinated with teams to resolve issues and prevent rework.

H&M; Advertising — Graphic Artist

Aug 2019 – Jan 2020

- Produced advertising/design deliverables (layouts, vectors, photo editing) aligned with client needs.

St. Mary's College of Tagum — College Instructor (IT/CS Department)

Jun 2018 – Mar 2019

- Taught programming and computer subjects; communicated technical concepts clearly and managed deadlines.
